Why Choose Serenity	27

— A MODERN SPACE-SAVING SOLUTION

Changing the Way You See Doors

Serenity provides expertly designed sliding door systems for commercial projects nationwide.

We combine industry-leading customer service with complete solutions you can count on. Whether you want to control noise, manage access, or design a custom system, we have endless configurations to meet your vision and project needs.

Maximize Your Space With Sliding Doors

Compared to a swing door, Serenity's systems provide an additional 9-18 square feet at every opening.

Sliding door systems maximize your room's usable space, reclaiming the room needed to open a swing door and making it easier to navigate the space. With no swing door to maneuver around, openings are left free and clear for a wider access point and streamlined path of travel. Serenity's systems do not require a threshold and can help attain ADA compliance.

10' x 10' Sliding Door
100 Square Feet

10' x 16' Swing Door
160 Square Feet

\$515+ Per Sf Average US Cost For Medical Construction
\$10,000+ Saved Per Exam Room

Complete Systems For Easy Installation

Serenity systems arrive as a complete package including the frame, door, and all required hardware — streamlining the process from shop to site and simplifying installation. Tracks are preinstalled in-house with the soft-close assembly, minimizing time, headaches, and lost parts. With fewer parts to assemble, Serenity's systems offer improved project delivery time and fewer headaches during on-site coordination.

Pre-installed Tracks

Assembled in-house to accelerate build speed, decrease labor costs, and reduce construction defects

Space-Saving

Mounted flush to the wall, these systems provide easy access and maximize your space

Sound Seals

Acoustic doors, integral gasketing, and specialized hardware provide privacy and reduce noise

Soft-Closing

Heavy-duty closing hardware brings your sliding door to a smooth and controlled stop

Lockable

Secure your space with a variety of locks, including deadlocks, mortise locks, magnetic locks, and beyond

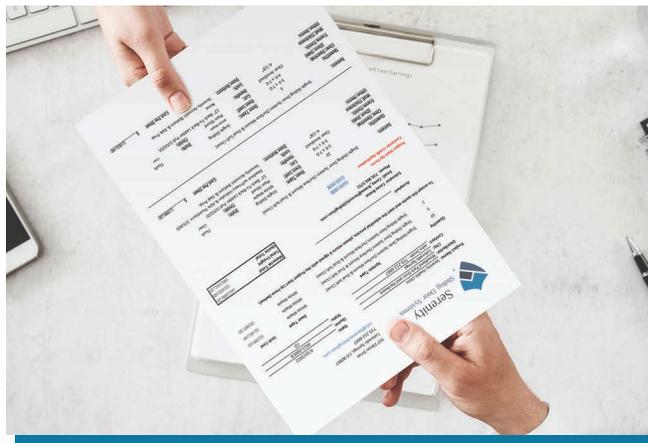

Customizable

Sliding door solutions to meet your exact specifications for appearance and functionality

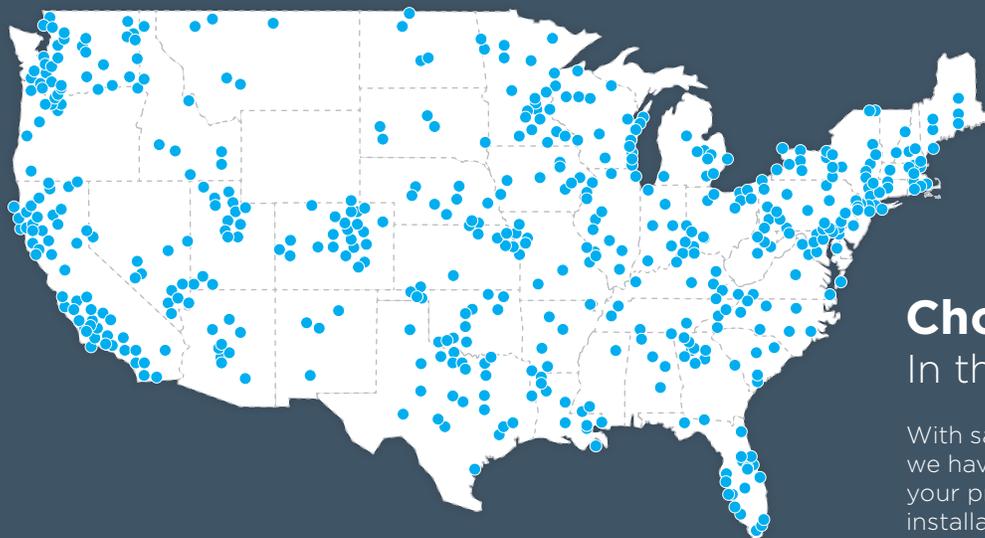

Quick Quotes & Industry-Leading Service

Serenity sells directly to contract hardware distributors to preserve the quality of our service and integrity of our products. To place an order, contact your local Territory Sales Representative for a quote. Upon quote approval, a dedicated Serenity Project Manager will work with you through the project's completion. Quote requests are typically fulfilled within seventy-two hours and submittals within three days. Visit our website to get in contact with your local representative.

Tried & Tested Extrusions & Hardware

Serenity's sliding door systems are constructed using U.S.A. made extruded aluminum parts and German-engineered hardware. Through cycle testing, we ensure our systems are designed to withstand commercial use. Not only are they built to last, but we also offer optional STC 26, STC 35, and UL1784 ratings.

Chosen By Many In the U.S. & Canada

With sales representatives in every state, we have everything needed to support your project from conception to installation— and in the years ahead!

Healthcare

— IDEAL FOR EXAM ROOMS

MedSlide

Our standard healthcare sliding door system, designed for smooth operation, space efficiency, and long-term durability.

- ✔ Maximizes Usable Space
- ✔ Enhances Patient Privacy
- ✔ Simplifies Staff Access

Perfect for Patients More Efficient for Staff

The MedSlide provides both privacy for patients and ease of use for staff. With a wider access point and no swing door to maneuver around, pathways are left free and clear for busy staff members. Through a concealed floor guide and no threshold, rolling carts and equipment enter with a breeze. This system is an excellent solution for a variety of healthcare applications.

MedSlide Features

-  **Surface-Mounted Design**
Mounts flush to the wall for maximum space savings
-  **Soft Close / Soft Open**
Provides smooth, controlled door movement
-  **Double Sound Seal**
Enhances privacy and reduces noise
-  **Valance Options**
Available in Squared or Sloped to fit your needs

OPTIONAL UPGRADES

Key/Privacy Lockable

Meet your security needs with various lock types

Acoustic Door Bottom

Drops automatically when the door is closed to create a sound seal

Antimicrobial Hardware

Protect against germs with custom additives or specialty metals

— SEALED FOR SOUND

MedSlide Plus

Featuring an STC 26 Rating, the MedSlide Plus delivers reliable acoustic performance with cost-effective value.

- ✓ Delivers Reliable Sound Control
- ✓ Maintains Easy Accessibility
- ✓ Provides Cost Savings in Comparison to STC 35

Sound Rated & Ideal for Healthcare

Engineered with an STC 26 rating, the MedSlide Plus combines a Double Sound Seal with an Acoustic Door Bottom that drops into place when closed. Beyond its sound rating, this system also provides space savings, ease of access, and security. It's an economical solution for facilities needing reliable acoustic control.

MedSlide Plus Features

Surface-Mounted Design
Mounts flush to the wall for maximum space savings

Value Engineered
Reduces cost while meeting project needs

STC 26 Rating
Delivers enhanced privacy and limits sound transfer

SCLC-5 Core
Delivers lasting value and dependable performance

Soft Close / Soft Open
Provides smooth, controlled door movement

Acoustic Door Bottom
Drops automatically to create a sound seal

OPTIONAL UPGRADES

Key/Privacy Lockable

Meet your security needs with various lock types

Automatic Operator

Open and close the door automatically with access control hardware

Antimicrobial Hardware

Protect against germs with custom additives or specialty metals

— MEET ACOUSTIC NEEDS

MedSlide Pro

Featuring an STC 35 Rating, the MedSlide Pro delivers enhanced acoustic privacy for demanding healthcare environments.

- ✓ Maximizes Sound Control
- ✓ Enhances Patient Comfort & Privacy
- ✓ Secures with Locking Hardware

2023 SYMPOSIUM
DISTINCTION AWARDS
Architect's Choice

Superior Acoustic Control Engineered for Performance

The MedSlide Pro provides an STC 35 rating, Serenity's highest level of sound control. Like the Plus model, it combines a Double Sound Seal with an Acoustic Door Bottom that drops into place when closed. The result is exceptional sound isolation and smooth operation—ideal for healthcare spaces, where privacy and comfort are essential.

MedSlide Pro Features

-  **Surface-Mounted Design**
Mounts flush to the wall for maximum space savings
-  **Soft Close / Soft Open**
Provides smooth, controlled door movement
-  **STC 35 Rating**
Provides the most sound protection and privacy
-  **Acoustic Door Bottom**
Drops automatically to create a sound seal

OPTIONAL UPGRADES

Key/Privacy Lockable

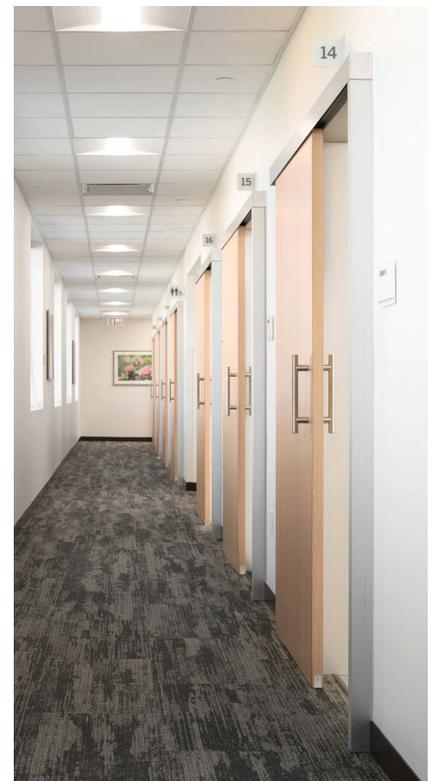

Meet your security needs with various lock types

Automatic Operator

Open and close the door automatically with access control hardware

Antimicrobial Hardware

Protect against germs with custom additives or specialty metals

— SECURE YOUR SPACE

SecureSlide

Equipped with a Mechanical Spring Closer and Magnetic lock, this system closes and locks behind the user for ultimate security.

- ✔ Protects Private Spaces
- ✔ Promotes Ease of Use
- ✔ Withstands Heavy Commercial Use

Control Access & Secure Private Spaces

Designed for effortless security, the SecureSlide features a Mechanical Spring Closer that automatically pulls the door closed behind the user. Paired with a Magnetic Lock, the system auto-latches once in a closed position. A Concealed Floor Guide completes the system for smooth, consistent performance.

(Access control accessories by others)

SecureSlide Features

Surface-Mounted Design
Mounts flush to the wall for maximum space savings

Magnetic Lock
Auto-latches once door is in the closed position

Double Sound Seal
Enhances privacy and reduces noise

Mechanical Spring Closer
Offers smooth, assisted door closing

Soft Close
Provides smooth, controlled door movement

Concealed Floor Guide
Guides the door slab for smooth, reliable positioning

OPTIONAL UPGRADES

Electrified Lock

Available with system fail-safe or fail-secure

Acoustic Door Bottom

Drops automatically when the door is closed to create a sound seal

— PROTECT YOUR FACILITY

SmokeSlide

Certified UL1784, this system provides protection with self-closing and auto-latching smoke-control performance.

- ✓ Controls Smoke Movement
- ✓ Creates a Safety Barrier
- ✓ Provides Secure Storage

Provide Protection With a Secure Solution

This smoke-rated system utilizes specialized hardware to guard against smoke and draft risks. Featuring a Mechanical Spring Closer and auto-latching lock, the SmokeSlide automatically closed and locks behind the user. With the addition of an Acoustic Door Bottom, the SmokeSlide provides dependable protection.

Label Included for UL1784 Smoke Rating

SmokeSlide Features

-  **Surface-Mounted Design**
Mounts flush to the wall for maximum space savings
-  **Auto-Latching Mortise Lock**
Automatically locks behind the user
-  **Smoke & Sound Seal**
Blocks smoke and sound with reliable edge sealing
-  **Mechanical Spring Closer**
Offers smooth, assisted door closing
-  **Soft Close**
Provides smooth, controlled door movement
-  **Acoustic Door Bottom**
Drops automatically to block smoke and sound transfer

OPTIONAL UPGRADES

Electrified Lock

Available with system fail-safe or fail-secure

Antimicrobial Hardware

Protect against germs with custom additives or specialty metals

— REDUCE TOUCHPOINTS

PowerSlide

Equipped with an Automatic Operator, this system opens automatically with any standard access control hardware, including keypads, card readers, and more.

- ✓ Improves Facility Safety
- ✓ Increases Ease of Use
- ✓ Saves Valuable Square Footage

Protect Your Space From Unwanted Germs

With the PowerSlide, you can choose from a variety of access control solutions to both improve ease of use and facility safety. From a simple push button to an overhead sensor or swipe key - there is an option for all security levels.

(Access control accessories by others)

PowerSlide Features

Surface-Mounted Design
Mounts flush to the wall for maximum space savings

UL 325 Listed
Meets ANSI requirements for low-energy sliding doors

Double Sound Seal
Enhances privacy and reduces noise

Concealed Floor Guide
Guides the door slab for smooth, reliable positioning

Automatic Operator
Operate the door with access control hardware

Retrofit Ready
Easily added to already existing openings

OPTIONAL UPGRADES

Acoustic Door Bottom

Drops automatically when the door is closed to create a sound seal

Battery Back-Up or Power Assist

Incorporate a backup battery or Push-N-Go Open Feature

Custom Powder Coat

Finish your system in any color with a durable custom powder coat

— IMPROVE ACCESSIBILITY

MedLift Slide

Featuring an opening in the track to accommodate a patient lift, this system is ideal for accessible healthcare spaces.

- ✓ Increases Patient Accessibility
- ✓ Reduces Risk of Injury to Staff
- ✓ Helps to Achieve ADA Compliance

Silver Award

Recognized at the Nightingale Awards as one of the best new products for the healthcare-built environment.

Improve Accessibility & Reduce Injuries

With the MedLift Slide, staff efficiency and patient comfort are vastly improved. This space-saving solution allows patients with limited mobility to be transported by lift, reducing risk to both patients and caregivers. Its small footprint, excellent user experience, and improved accessibility show that there's no better solution for patient care.

MedLift Slide Features

-  **Surface-Mounted Design**
Mounts flush to the wall for maximum space savings
-  **Ceiling Lift Ready**
Easily integrates for better accessibility and safety
-  **Soft Close / Soft Open**
Provides smooth, controlled door movement
-  **Six Inch Gap Standard**
Accommodates gaps up to 6" wide
-  **Concealed Floor Guide**
Guides the door slab for smooth, reliable positioning
-  **Valance Options**
Available in Squared or Sloped to fit your needs

OPTIONAL UPGRADES

Key/Privacy Lockable

Meet your security needs with various lock types

Antimicrobial Hardware

Protect against germs with custom additives or specialty metals

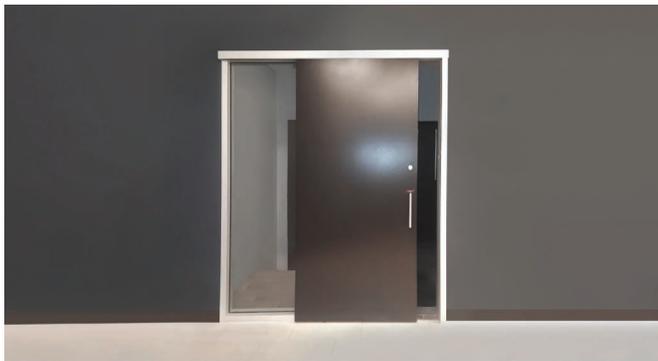

Office

— FOR A MODERN LOOK

SurfaceView Slide

Space-saving with sound seals, this surface-mount system provides an attractive and functional solution for office spaces.

- ✓ Manages Soundscape
- ✓ Elevates your Space
- ✓ Maximizes Square Footage

Upgrade Your Office With a Sound Control Solution

Attractive and easy to use, the SurfaceView Slide is the perfect solution for office spaces. With soft-closing hardware and sound seals, this system helps maintain a low sound level for employees during calls and meetings. Available with a variety of finishes and locking hardware, the SurfaceView can be configured for almost any aesthetic style and security level.

SurfaceView Slide Features

-  **Surface-Mounted Design**
Mounts flush to the wall for maximum space savings
-  **Sidelites / Transoms**
Add glazing to your system (glass by others)
-  **Double Sound Seal**
Enhances privacy and reduces noise
-  **Concealed Floor Guide**
Guides the door slab for smooth, reliable positioning
-  **Soft Close / Soft Open**
Provides smooth, controlled door movement
-  **Valance Options**
Available in Squared or Sloped to fit your needs

OPTIONAL UPGRADES

Key/Privacy Lockable

Meet your security needs with various lock types

Mechanical Spring Closer or Automatic Operator

Include door closing hardware or access control automation

Acoustic Door Bottom

Drops automatically when the door is closed to create a sound seal

— ATTRACTIVE & OPEN

EvenView Slide

Featuring a variety of glazing options, this flush-mount system supports natural lighting with a modern acoustic solution.

- ✓ Elevates your Space
- ✓ Maximizes Square Footage
- ✓ Invites in Natural Light

Let the Light In Improve Employee Wellbeing

Great for open-space concepts, the EvenView Slide mounts flush to the wall for a seamless look. Several glazing options are offered to carry light throughout the space. With its ease of use and sound control, the EvenView is the ideal solution for modern offices.

EvenView Slide Features

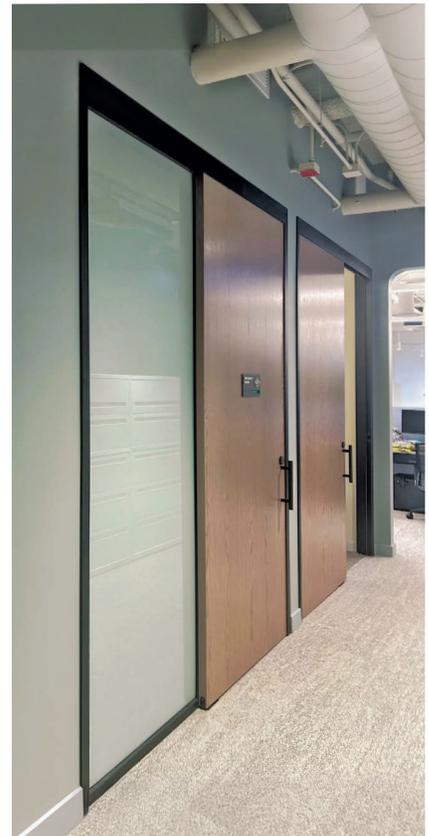

- Flush-Mounted Design**
Mounts flush within the wall for maximum space savings
- Double Sound Seal**
Enhances privacy and reduces noise
- Soft Close / Soft Open**
Provides smooth, controlled door movement
- Sidelites / Transoms**
Add glazing to your system (glass by others)
- Finish Options**
Available in clear and black anodized, or powder coat
- Concealed Floor Guide**
Guides the door slab for smooth, reliable positioning

OPTIONAL UPGRADES

Key/Privacy Lockable
Meet your security needs with various lock types

Acoustic Door Bottom
Drops automatically when the door is closed to create a sound seal

Antimicrobial Hardware
Protect against germs with custom additives or specialty metals

— SOLVE LARGE OPENINGS

SyncSlide

Ideal for conference rooms, this system uses a hidden belt to open and close both doors simultaneously.

- ✓ Maximizes Square Footage
- ✓ Solves Larger Openings
- ✓ Elevates Space

A Sophisticated Solution That Opens with One Pull

Perfect for rooms with larger openings, the SyncSlide is equipped with bi-part doors that can open or close simultaneously. This keeps the doors in the same position, either open or closed. Pair the SyncSlide with optional locking, sidelites, or transoms for your ideal solution.

SyncSlide Features

Surface-Mounted Design
Mounts flush to the wall for maximum space savings

Simultaneous Movement
Open and close both doors at the same time

Double Sound Seal
Enhances privacy and reduces noise

Concealed Floor Guide
Guides the door slab for smooth, reliable positioning

OPTIONAL UPGRADES

Key/Privacy Lockable

Meet your security needs with various lock types

Acoustic Door Bottom

Drops automatically when the door is closed to create a sound seal

Compatible with the EvenView, SurfaceView, & PowerSlide

Pair with other systems to create your ideal SyncSlide

Hospitality

LUXURIOUS & EFFICIENT

InnSlide

Soft-closing and customizable, this ADA compliant system maximizes space while providing luxury appeal and comfort for guests.

- ✓ Elevates End User Experience
- ✓ Retains Usable Space
- ✓ Modernizes Your Facility

Modernize Your Space & Elevate User Experience

The new InnSlide offers even more space-savings at a lower cost. Designed specifically for hospitality interiors, this system is attractive, efficient, and easy to operate. With a smaller door, track, frameless option, and low-profile lock, the InnSlide is an ideal ADA-compliant option for your projects.

(Cased Open or Finished Dry Wall Options Available)

InnSlide Features

-  **Surface-Mounted Design**
Mounts flush to the wall for maximum space savings
-  **Low Profile Privacy Lock**
Secure your system with space-saving hardware
-  **Double Sound Seal**
Enhances privacy and reduces noise
-  **Valance Options**
Available in Squared or Sloped to fit your needs
-  **Soft Close / Soft Open**
Provides smooth movement and slam resistance
-  **Concealed Floor Guide**
Guides the door slab for smooth, reliable positioning

OPTIONAL UPGRADES

- Acoustic Door Bottom**
Drops automatically when the door is closed to create a sound seal
- Antimicrobial Hardware**
Protect against germs with custom additives or specialty metals

— TAILORED TO YOUR NEEDS

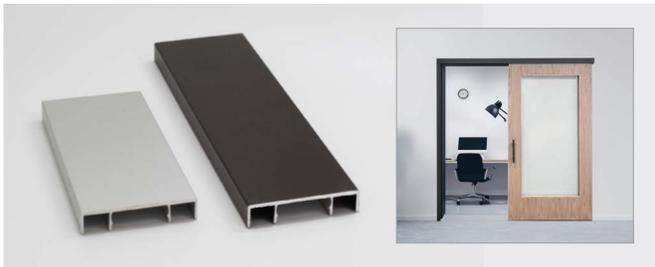

Customizations

We offer a variety of selections to meet your facility needs. Choose from our options below to pair the perfect system with your project.

Don't see what you're looking for? We're happy to work with you. We can even match to your swing door package! Contact our team for more information.

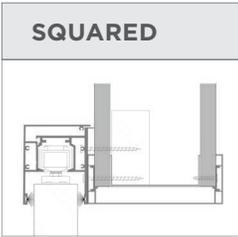

SURFACE

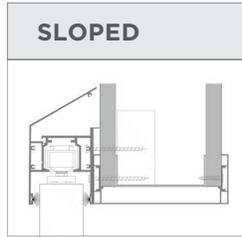

FLUSH

Mounting

Surface-mount systems are attached to the cased opening. Flush-mount systems are installed within the profile of the wall for a sleek, modern look.

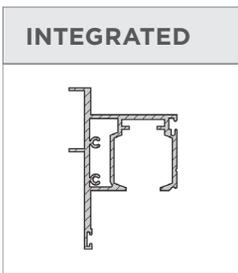

SQUARED

SLOPED

Valances

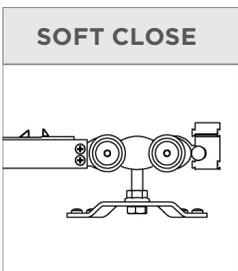

While the squared design works well for most applications, Serenity also offers the sloped valance for easier cleaning.

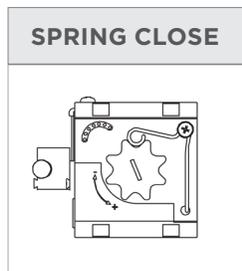

INTEGRATED

Integrated Track & Backer

The Integrated Track and Backer are combined into one seamless component for streamlined installation.

SOFT CLOSE

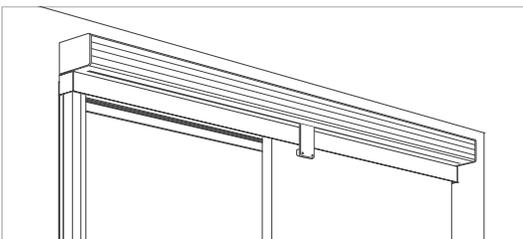

SPRING CLOSE

Closing Hardware

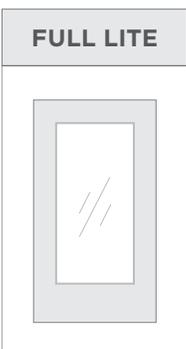

The Soft Close is used to bring the door to a smooth, quiet, and controlled stop when closing.

The Mechanical Spring Closer offers smooth, assisted door closing for ease and control.

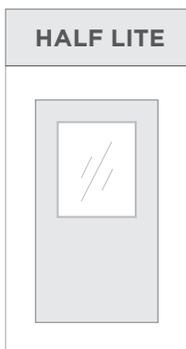

Automatic Operator

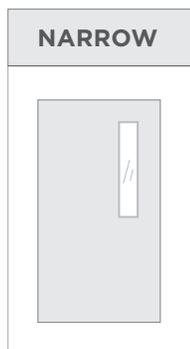

An Automatic Operator is a low energy self-tensioning pulley and belt system used to open the door automatically. It is fully programmable and compatible with a variety of access control hardware.

FULL LITE

HALF LITE

NARROW

Glazing Kits

Systems are available with door lite inserts, sidelites, and transoms. Factory glazed 1/4" clear tempered glass is provided for standard lite sizes. Custom lite sizes are available with specialty glass.

Hardware

Serenity provides a variety of hardware to meet your design, sound, and security requirements. Customize your system to the needs of your facility from the options below.

Handle Options

The standard back-to-back ladder pull is available in two finishes and lengths of 12" and 16".

Serenity also has twelve different lever designs, available with square or round roses in six finishes.

Door Bottom Options

The concealed floor guide keeps the door slab in the proper position.

The acoustic door bottom is fully mortised and drops automatically when the door is closed.

— INSTALLED RIGHT. FROM DAY ONE.

Factory Trained Installers

Serenity's Factory Trained Installer Program connects you with professionals who are trained directly by our experts to ensure every system is installed correctly, efficiently, and to factory standards.

 Precise Installation

 Reduced Risk

 Expert Knowledge

What are Serenity Factory Trained Installers?

After completing Serenity's training, installers become more than just contractors—they become an extension of our factory. Trained directly by Serenity experts, they understand our systems inside and out and follow approved installation methods. With hands-on experience across our full product line, they know how to prevent common field issues before they happen.

Why Choose Them For Your Projects?

Better Installs

Doors are installed exactly as designed for smooth, reliable operation.

Fewer Costly Errors

Proper methods reduce misalignment, rework, and avoidable field issues.

Superior System Knowledge

Installers understand Serenity products inside and out, from hardware to clearances.

Find a Factory Trained Installer Online

Interested in Training?

Please contact your local sales representative for information on our next training session.

— PACKAGED FOR PROJECT SUCCESS

Shipping with Serenity

Serenity delivers more than sliding door systems — we deliver confidence. Every order is prepared, packed, and shipped with precision to keep your project moving smoothly.

Preparing

Every Serenity system is produced and inspected with care before it ever leaves our facility. After cutting, all aluminum components are **cleaned, measured, and double-checked for accuracy**. To further streamline installation, we preload system tracks in-house with the soft-close, wheel sets, trigger, and stop.

This ensures your system arrives ready to install — reducing field adjustments, minimizing errors, and saving valuable time onsite.

Packaging

Each shipment is typically packed with **one complete system per box**, so installers receive everything needed to complete each opening without sorting or searching.

To Protect Your Order:

- ✔ Parts are wrapped in heavy-duty paper to prevent scratching
- ✔ Edges are sealed in clear protective film
- ✔ All components are individually labeled for fast identification
- ✔ Double-wall corrugated boxes safeguards materials during transit

Every box is clearly labeled inside and out, so crews can unload, stage, and install with confidence.

Project Close

Once your systems ship, Serenity provides detailed tracking information and a **Two-Year Limited Warranty**, including replacement of damaged components where applicable.

We also support installers before and after installation with **troubleshooting assistance, and virtual and in-person training options**.

— NEED SOLUTIONS FAST?

Expedited Orders

Serenity offers two different programs with faster lead times for time-sensitive projects. Explore our stocked solutions below for when you need to move quickly.

Get What You Need In As Fast as 2-8 Weeks

Deadlines don't have to mean delays. With a wide range of stocked options, our programs make it easier to find the right solution and keep your project moving forward.
