Maximize Your Space With Sliding Doors

Compared to a swing door, Serenity's systems provide an additional 9-18 square feet at every opening.

Sliding door systems maximize your room's usable space, reclaiming the room needed to open a swing door and making it easier to navigate the space. With no swing door to maneuver around, openings are left free and clear for a wider access point and streamlined path of travel. Serenity's systems do not require a threshold and can help attain ADA compliance.

10' x 10' Sliding Door
100 Square Feet

10' x 16' Swing Door
160 Square Feet

\$515+ Per Sf Average US Cost For Medical Construction
\$10,000+ Saved Per Exam Room

Complete Systems For Easy Installation

Serenity systems arrive as a complete package including the frame, door, and all required hardware — streamlining the process from shop to site and simplifying installation. Tracks are preinstalled in-house with the soft-close assembly, minimizing time, headaches, and lost parts. With fewer parts to assemble, Serenity's systems offer improved project delivery time and fewer headaches during on-site coordination.

Pre-installed Tracks

Assembled in-house to accelerate build speed, decrease labor costs, and reduce construction defects

Space-Saving

Mounted flush to the wall, these systems provide easy access and maximize your space

Sound Seals

Acoustic doors, integral gasketing, and specialized hardware provide privacy and reduce noise

Soft-Closing

Heavy-duty closing hardware brings your sliding door to a smooth and controlled stop

Lockable

Secure your space with a variety of locks, including deadlocks, mortise locks, magnetic locks, and beyond

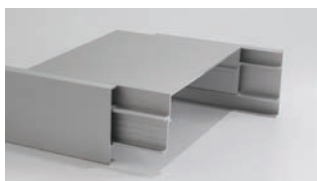

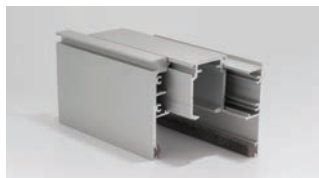

Customizable

Sliding door solutions to meet your exact specifications for appearance and functionality

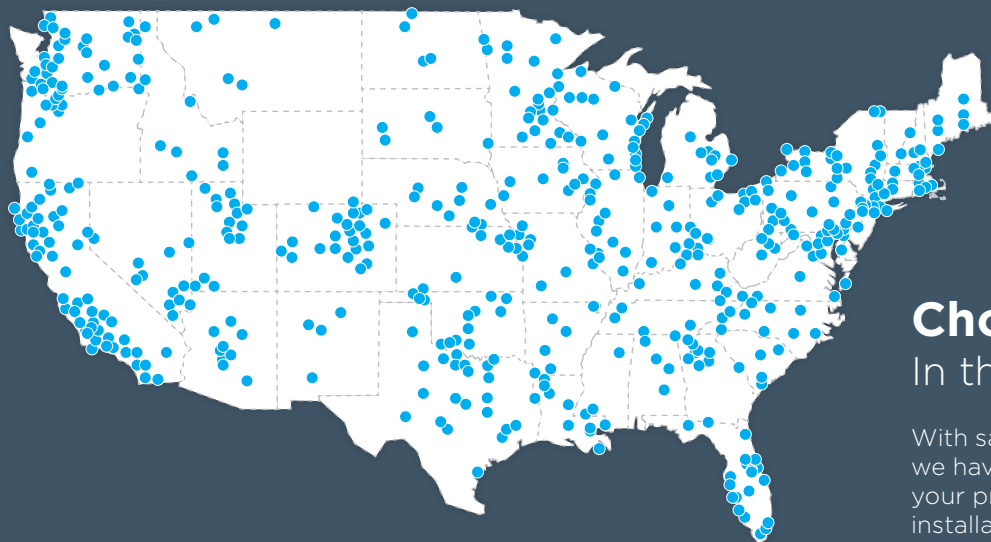

Quick Quotes & Industry-Leading Service

Serenity sells directly to contract hardware distributors to preserve the quality of our service and integrity of our products. To place an order, contact your local Territory Sales Representative for a quote. Upon quote approval, a dedicated Serenity Project Manager will work with you through the project's completion. Quote requests are typically fulfilled within twenty-four hours and submittals within three days. Visit our website to get in contact with your local representative.

Tried & Tested Extrusions & Hardware

Serenity's sliding door systems are constructed using U.S.A. made extruded aluminum parts and German-engineered hardware. Through cycle testing, we ensure our systems are designed to withstand commercial use. Not only are they built to last, but we also offer optional NIC 40, STC 35, or UL1784 ratings.

Chosen By Many In the U.S. & Canada

With sales representatives in every state, we have everything needed to support your project from conception to installation— and in the years ahead!

Healthcare

— IDEAL FOR EXAM ROOMS

MedSlide

Sealed for sight and sound with an optional sloped valance, this surface-mount system is ideal for exam rooms, patients, and staff.

- ✓ Saves Space
- ✓ Ensures Patient Privacy
- ✓ Secures with Locking Hardware

Perfect for Patients More Efficient for Staff

The MedSlide provides both privacy for patients and ease of use for staff. With a wider access point and no swing door to maneuver around, pathways are left free and clear for busy staff members. Through a concealed floor guide and no threshold, rolling carts and equipment enter with a breeze. This system is an excellent solution for a variety of healthcare applications.

STANDARD FEATURES

- Surface-mounted
- Sound Seals
- Soft Close / Soft Open
- Concealed Floor Guide

APPLICATIONS

- Exam Rooms
- Clinics
- Patient Restrooms
- Medical Office Buildings
- Hospitals

OPTIONAL FEATURES

- UL1784 Smoke Rating available
- Key/Privacy Lockable for a variety of hardware solutions
- Sloped or Return Valance for easier cleaning
- Spring Close for self-closing systems ideal for privacy or security
- Electric Operator for hands-free operation
- Antimicrobial Hardware available

— MEET ACOUSTIC NEEDS

MedSlide Pro

Featuring all the benefits of the MedSlide with the addition of an STC-35 Rating, this system is ideal for acoustic healthcare projects.

- ✓ Saves Space
- ✓ Maximizes Sound Control
- ✓ Secures with Locking Hardware

Sound Rated & Ideal for Healthcare

The MedSlide Pro includes an STC-35 rating, the highest sound control of all Serenity's systems. It achieves this rating by combining the sound seal with an Automatic Door Bottom. The Door Bottom is fully mortised within the bottom of the door, and drops automatically when the door is in a closed position. Apart from its sound rating, this system also provides space-savings, ease of access, and security.

STANDARD FEATURES

- Proprietary, Lab Tested Door Slab
- Automatic Door Bottom
- Surface-mounted
- Soft Close / Soft Open

APPLICATIONS

- Exam Rooms
- Clinics
- Patient Restrooms
- Medical Office Buildings
- Hospitals

OPTIONAL FEATURES

- Key/Privacy Lockable for a variety of hardware solutions
- Sloped or Return Valance for easier cleaning
- Spring Close for self-closing systems ideal for privacy or security
- Electric Operator for hands-free operation
- Antimicrobial Hardware available

— IMPROVE ACCESSIBILITY

MedLift Slide

Featuring an opening in the track to accommodate a patient lift, this system is ideal for accessible healthcare spaces.

- ✓ Increases Patient Accessibility
- ✓ Reduces Risk of Injury to Staff
- ✓ Helps to Achieve ADA Compliance

Silver Award

Recognized at the Nightingale Awards as one of the best new products for the healthcare-built environment.

Improve Accessibility & Reduce Injuries

With the MedLift Slide, staff efficiency and patient comfort are vastly improved. This space-saving solution allows patients with limited mobility to be transported by lift, reducing risk to both patients and caregivers. Its small footprint, excellent user experience, and improved accessibility show that there's no better solution for patient care.

STANDARD FEATURES

- Surface-mounted
- Sound Seals
- Soft Close Only
- Concealed Floor Guide
- Track Width Up to 6"

APPLICATIONS

- Patient Restrooms
- Exam Rooms
- Clinics
- Medical Office Buildings
- Residential Care

OPTIONAL FEATURES

- Key/Privacy Lockable for a variety of hardware solutions
- Antimicrobial Hardware available
- Add an Automatic Door Bottom for additional acoustic control
- Sloped or Return Valance for easier cleaning
- Available with Privacy Indicator

— REDUCE TOUCHPOINTS

PowerSlide

Equipped with an electric operator, this system opens automatically with any standard access control hardware, including keypads, card readers, and more.

- ✔ Improves Facility Safety
- ✔ Increases Ease of Use
- ✔ Saves Valuable Square Footage

Protect Your Space From Unwanted Germs

With the PowerSlide, you can choose from a variety of access control solutions to both improve ease of use and facility safety. From a simple push button to an overhead sensor or swipe key - there is an option for all security levels. The electric operator is UL 325 listed and meets all requirements of ANSI for low-energy sliding door systems.

(Access control accessories by others)

STANDARD FEATURES

- Electric Operator
- Surface-mounted
- Sound Seals
- Concealed Floor Guide

APPLICATIONS

- Exam Rooms
- Clinics
- Medical Office Buildings
- Labs
- Hospitals

OPTIONAL FEATURES

- Integrates with a variety of access control solutions
- Antimicrobial Hardware available
- Retrofits to existing openings
- Battery back-up
- Power Assist ; Push-N-Go Open Feature Available
- Add an Automatic Door Bottom for additional acoustic control

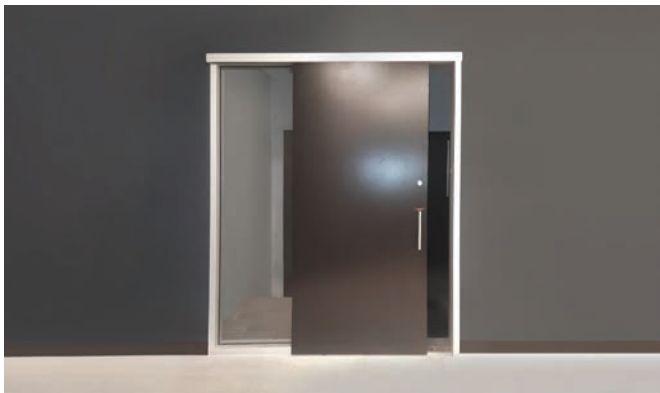

Office

— FOR A MODERN LOOK

SurfaceView Slide

Space-saving with sound seals, this surface-mount system provides an attractive and functional solution for office spaces.

- ✔ Manages Soundscape
- ✔ Elevates your Space
- ✔ Maximizes Square Footage

Upgrade Your Office With a Sound Control Solution

Attractive and easy to use, the SurfaceView Slide is the perfect solution for office spaces. With soft-closing hardware and sound seals, this system helps maintain a low sound level for employees during calls and meetings. Available with a variety of finishes and locking hardware, the SurfaceView can be configured for almost any aesthetic style and security level.

STANDARD FEATURES

- Surface-mounted
- Sound Seals
- Soft Close / Soft Open
- Concealed Floor Guide
- Sidelite Glass by Others

APPLICATIONS

- Business Offices
- Education
- Government Buildings
- Salons

OPTIONAL FEATURES

- Key/Privacy Lockable for a variety of hardware solutions
- Sloped or Return Valance for easier cleaning
- Spring Close for self-closing systems ideal for privacy or security
- Electric Operator for hands-free operation
- Antimicrobial Hardware available
- Add an Automatic Door Bottom for additional acoustic control
- Available with Transom

— ATTRACTIVE & OPEN

EvenView Slide

Featuring a variety of glazing options, this flush-mount system supports natural lighting with a modern acoustic solution.

- ✓ Elevates your Space
- ✓ Maximizes Square Footage
- ✓ Invites in Natural Light

Let the Light In Improve Employee Wellbeing

Great for open-space concepts, the EvenView Slide mounts flush to the wall for a seamless look. Several glazing options are offered to carry light throughout the space. With its ease of use and sound control, the EvenView is the ideal solution for modern offices.

STANDARD FEATURES

- Flush-mounted
- Sound Seals
- Soft Close / Soft Open
- Concealed Floor Guide
- Sidelite Glass by Others

APPLICATIONS

- Business Offices
- Education
- Government Buildings
- Salons

OPTIONAL FEATURES

- Key/Privacy Lockable for a variety of hardware solutions
- Antimicrobial Hardware available
- Add an Automatic Door Bottom for additional acoustic control
- Available with Transom

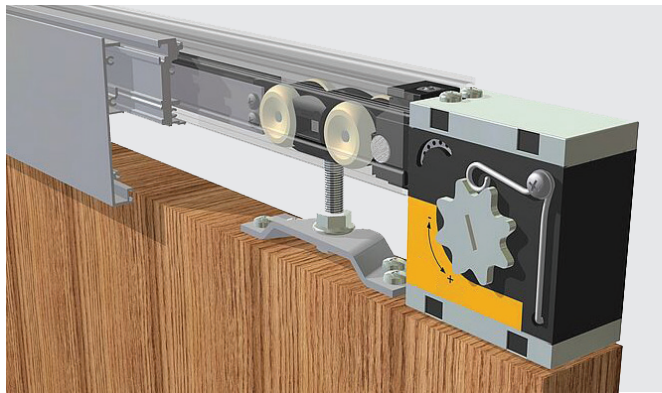

— PROTECT YOUR FACILITY

SmokeSlide

Certified UL1784, this system provides protection while self-closing and self-latching.

- ✔ Controls Smoke Movement
- ✔ Creates a Safety Barrier
- ✔ Provides Secure Storage

Provide Protection With a Secure Solution

This smoke-rated system utilizes specialized hardware to ensure against smoke and draft risks. Featuring a spring close and self-latching lock, the SmokeSlide automatically closes and locks behind the user. With the addition of an automatic drop seal, the SmokeSlide provides the ultimate security.

STANDARD FEATURES

- Sound Seals
- Soft Close Only
- Concealed Floor Guide
- Auto-Latch Mortise Lock
- Spring Close

APPLICATIONS

- Pharmacies
- Labs
- Clinics
- Medical Office Buildings
- Government Buildings

OPTIONAL FEATURES

- Optional Electric Lock that functions as system fail-safe
- Key/Privacy Lockable for a variety of hardware solutions
- Sloped or Return Valance for easier cleaning
- Antimicrobial Hardware available
- Label Available for UL1784 Smoke Rating (Smoke and Draft Control, Door and Frame Assembly)

Specialty

— SECURE YOUR SPACE

SecureSlide

Equipped with a spring close and self-latching lock, this system closes and locks behind the user for ultimate security.

- ✔ Protects Private Spaces
- ✔ Promotes Ease of Use
- ✔ Withstands Heavy Commercial Use

Control Access & Secure Private Areas

Designed to easily secure spaces, the SecureSlide features a spring close and self-latching lock to automatically close and lock behind the user. Tested to one million cycles, our spring close is built to last. Equipped with a concealed floor guide, the SecureSlide operates like a dream.

(Access control accessories by others)

STANDARD FEATURES

- Sound Seals
- Soft Close Only
- Concealed Floor Guide
- Spring Close
- Magnetic Lock

APPLICATIONS

- Pharmacies
- Labs
- Clinics
- Medical Office Buildings
- Government Buildings

OPTIONAL FEATURES

- Electronic Locks available with fail-safe or fail-secure
- Key/Privacy Lockable for a variety of hardware solutions
- Sloped or Return Valance for easier cleaning or ADA compliance
- Antimicrobial Hardware available
- Add an Automatic Door Bottom for additional acoustic control
- Electric Operator for hands-free operation

— SOLVE LARGE OPENINGS

SyncSlide

Ideal for conference rooms, this system uses a hidden belt to open and close both doors simultaneously.

- ✔ Maximizes Square Footage
- ✔ Solves Larger Openings
- ✔ Elevates Space

A Sophisticated Solution That Opens with One Pull

Perfect for rooms with larger openings, the SyncSlide is equipped with bi-part doors that can open or close simultaneously. This keeps the doors in the same position, either open or closed. Pair the SyncSlide with optional locking, sidelites, or transoms for your ideal solution.

STANDARD FEATURES

- Surface-mounted
- Sound Seals
- Soft Close
- Concealed Floor Guide
- Simultaneous Movement

APPLICATIONS

- Conference Rooms
- Media Room
- Bedroom Suite
- Business Offices
- Meeting Spaces

OPTIONAL FEATURES

- Add an Automatic Door Bottom for additional acoustic control
- Key/Privacy Lockable for a variety of hardware solutions
- Antimicrobial Hardware available
- Variety of pulls available
- Available for openings up to 7 feet wide

— CUSTOMIZE SMALL SPACES

TeleSlide

Opening by sliding one door in front of the other, this multi-door system is perfect for larger openings and tight spaces.

- ✓ Creates Custom Barrier
- ✓ Maximizes Functionality
- ✓ Divides Larger Spaces

Solve Larger Openings Without Sacrificing Space

As the TeleSlide opens by sliding one door in front of the other, it is an ideal solution for small spaces. While it can expand or contract based on your needs, it's great for providing flexibility for your facility. Equipped with a soft close, these systems are quiet and easy to operate. For those looking to secure a space, locking options are available.

STANDARD FEATURES

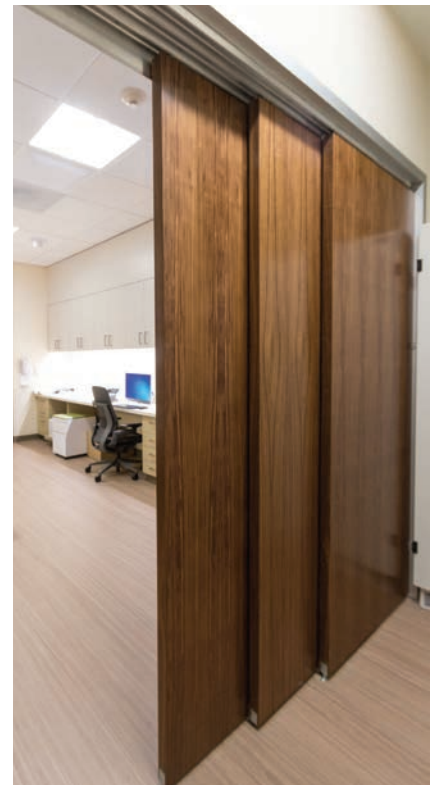

- Header-Mounted
- Sound Seals
- Soft Close
- No Floor Track

APPLICATIONS

- Room Divider
- Closet
- Breakfast Nook
- Storage
- Interior Office

OPTIONAL FEATURES

- Tracks up to 12 feet long, to meet openings up to 9 feet wide
- Select from a variety of finishes for your frame and door slab
- Antimicrobial Hardware available
- Variety of Flush Pulls available
- Synchronized Option available

Hospitality

— LUXURIOUS & EFFICIENT

InnSlide

Soft-closing and customizable, this ADA compliant system maximizes space while providing luxury appeal and comfort for guests.

- ✓ Elevates End User Experience
- ✓ Retains Usable Space
- ✓ Modernizes Your Facility

Modernize Your Space & Elevate User Experience

The new and improved InnSlide now offers even more space-savings at an even lower cost. Designed specifically for hospitality interiors, this system is attractive, efficient, and easy to operate. With a smaller door, track, frameless option, and low-profile lock, the InnSlide is an ideal ADA-compliant option for your projects.

STANDARD FEATURES

- Surface-mounted
- Sound Seals
- Concealed Floor Guide
- Low Profile Privacy Lock with Emergency Egress

APPLICATIONS

- Guest Bathrooms
- Hotels
- Resorts
- Lobbies
- Meeting Spaces

OPTIONAL FEATURES

- Key/Privacy Lockable for a variety of hardware solutions
- Sloped or Return Valance for easier cleaning
- Spring Close for self-closing systems ideal for privacy
- Antimicrobial Hardware available
- Available with Soft Close or Soft Open for slam resistance
- Cased Open or Finished Drywall Options

Don't see what you're looking for? We're happy to work with you. We can even match to your swing door package! Contact our team for more information.

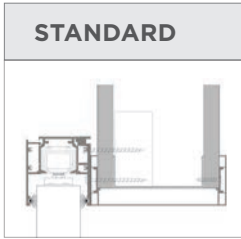

SURFACE

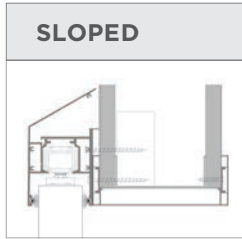

FLUSH

Mounting

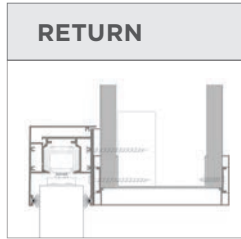

Surface-mount systems are attached to the cased opening. Flush-mount systems are installed within the profile of the wall for a sleek, modern look.

STANDARD

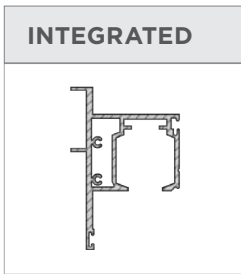

SLOPED

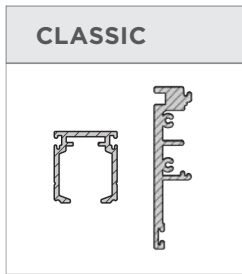

RETURN

Valances

While the standard design works well for most applications, Serenity also offers the slope valance for easier cleaning, and the return valance for a seamless finish.

INTEGRATED

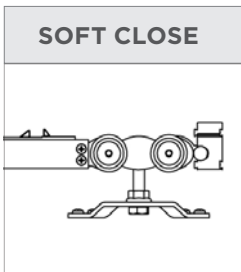

CLASSIC

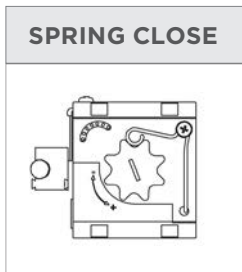

Track & Backer

The integrated track and backer are combined into one seamless component for streamlined installation.

The classic track and backer are installed separately.

SOFT CLOSE

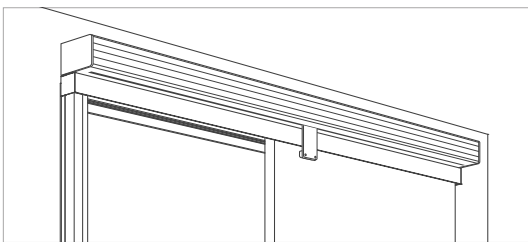

SPRING CLOSE

Closing Hardware

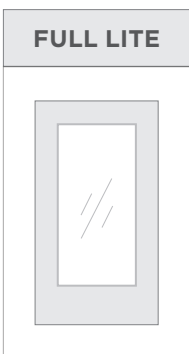

The soft close is used to bring the door to a smooth, quiet, and controlled stop when closing.

The spring close uses a self-closing mechanism to automatically pull the door to a closed position.

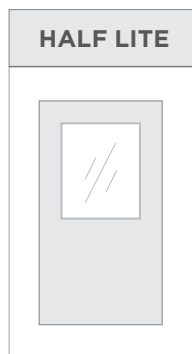

Electric Operator

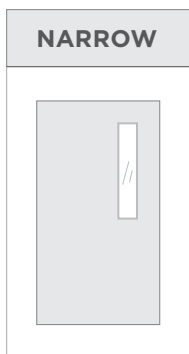

An electric operator is a low energy self-tensioning pulley and belt system used to open the door automatically. It is fully programmable and compatible with a variety of access control hardware.

FULL LITE

HALF LITE

NARROW

Glazing Kits

Systems are available with door lite inserts, sidelites, and transoms. Factory glazed 1/4" clear tempered glass is provided for standard lite sizes. Custom lite sizes are available with specialty glass.

Hardware

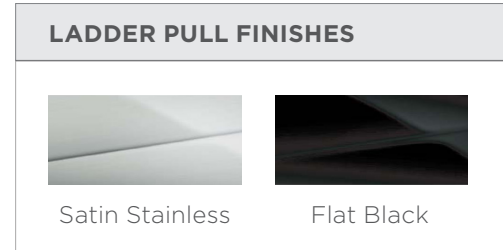

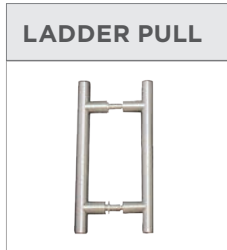

Serenity provides a variety of hardware to meet your design, sound, and security requirements. Customize your system to the needs of your facility from the options below.

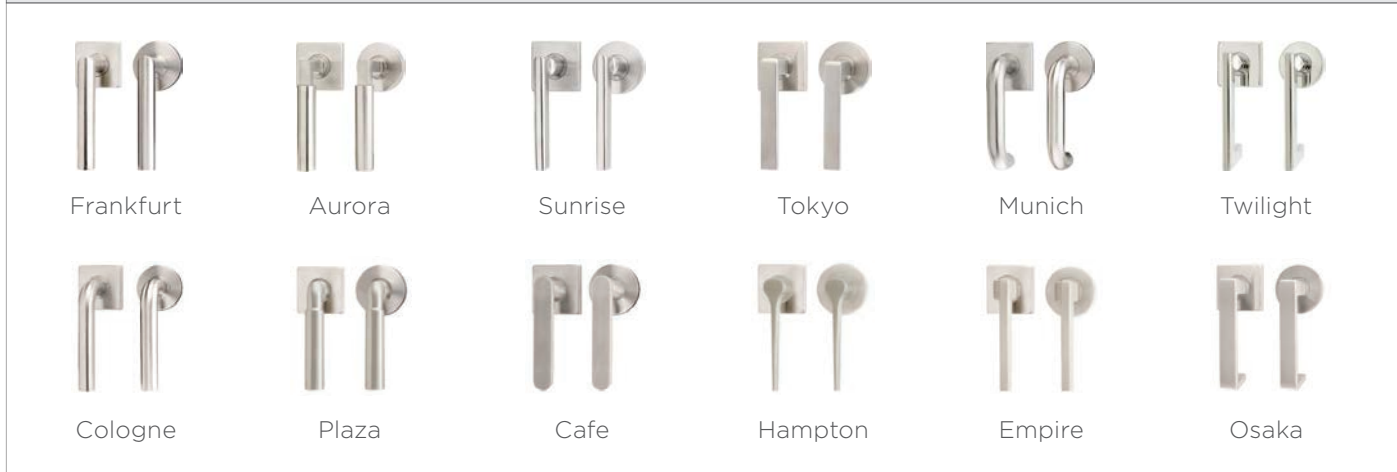

Handle Options

The standard back-to-back ladder pull is available in two finishes and lengths of 12" and 16".

Serenity also has twelve different lever designs, available with square or round roses in six finishes.

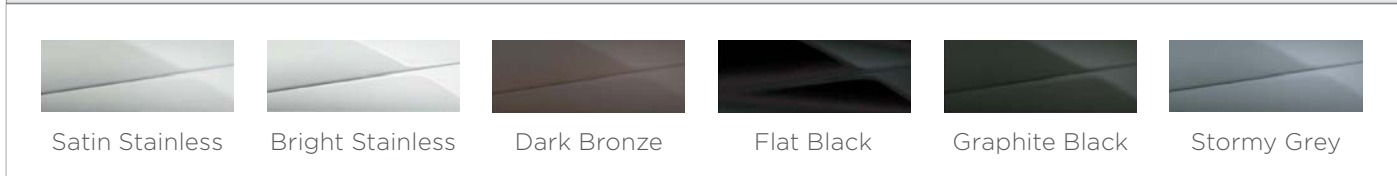

LEVERS

*Additional lever options available by request.

LEVER FINISHES

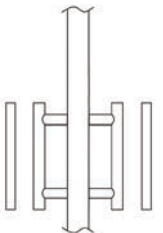

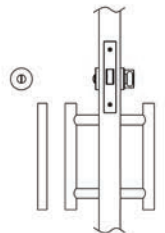

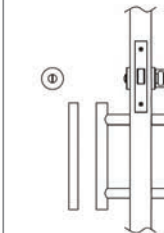

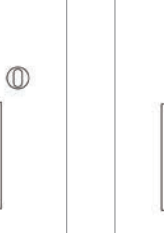

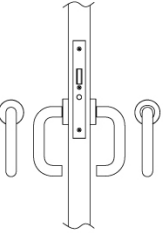

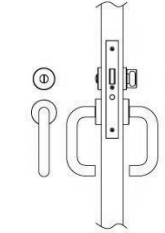

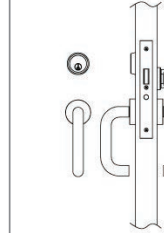

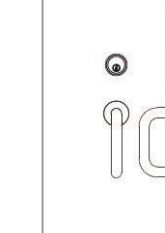

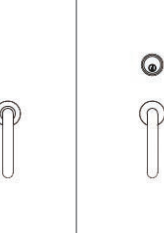

*Not all finishes may be available for every lever.
