

Serenity COMPLETE

By Serenity Sliding Door Systems

Serenity Complete offers complete systems with a variety of options in only eight weeks.

For systems or components with even shorter lead times, view our [Expedited Order Program](#). To see all systems available, view our [Standard Lead Times](#).

Streamline Your Solution

Through Serenity Complete, we offer a variety of systems complete with frame, track, door, and hardware. Hand selected to include the most popular combinations, this tailored collection ensures we have a system stocked and ready when you need it.

Available for Surface Mount System Only

Systems Tailored to Your Needs

Serenity Complete includes multiple options for sizes, finishes, hardware, and more, making it ideal for a wide range of projects. Choose from various design options and match selections to your needs.

Questions on Customizing?

Our team is ready to help you find what's perfect for your project. Reach out to Serenity with any questions or to request a quote.

Program Details

Ships within 8 weeks upon receipt of signed submittal. Expedited options may be available (6 weeks or less). Subject to inventory availability and order acceptance. Projects with up to 20 doors are typically eligible.

Clear Anodized	5"	5 1/4"	5 1/2"	6 1/8"	7 1/4"
Black Anodized	5"	5 1/4"	5 1/2"	6 1/8"	7 1/4"

System Sizes

Clear Opening Width	Door Slab Width	Rough Opening Width
Up to 3' - 6"	Up to 4' - 0"	Up to 4' - 0"
Clear Opening Height	Door Slab Height	Rough Opening Height
Up to 7' - 0"	Up to 7' - 0"	Up to 7' - 1"

Valances

The Standard Valance is ideal for a wide variety of applications.

The Sloped Valance provides easy access for cleaning, making it ideal for maintaining sterile environments.

Closers

The Soft Close is used to bring the door to a smooth, quiet, and controlled stop when closing.

The Spring Close uses a self-closing mechanism to automatically pull the door to a closed position.

Electric Operator

The Electric Operator mounts above Serenity's track system. It is low energy, fully programmable, and compatible with a variety of access control hardware such as electrified locks. Requires AAADM certified installer. Wiring and peripherals provided by others.

Door Bottoms

The Standard Floor Guide mounts to the floor to keep the door slab in the proper position.

The Automatic Door Bottom is fully mortised within the bottom of the door and drops automatically when the door is closed.

Lite Kits

Doors are available with no Lite, Full Lite, Half Lite, or a Narrow Vision Lite. Factory glazed 1/4" clear tempered glass is available for standard lite sizes. Custom sizes available with glass by others. Manufacturer's standard flush wood bead.

Handles

Back-To-Back Ladder Pulls		Levers			
					
12"	16"	202 Munich	205 Frankfurt	243 Sunrise	345 Tokyo

*Pulls & levers available in US32D/630 Satin Stainless Steel or US19/622 Flat Black. Additional lever designs available upon request.
