OPERATION

MECHANICAL SPRING CLOSER

Dependable. Reliable. Secure.

Self-closing mechanism hidden within the track that provides smooth, assisted door closing. Paired with a magnetic lock, the door locks automatically once closed.

AUTOMATIC OPERATOR

Touchless. Accessible. Efficient.

Low-energy pulley and belt system that automatically closes the door through access control hardware. Fully programmable, lockable, and easily retrofitted.

APPLICATIONS

- ✓ Exam Rooms, Labs, & Hospitals
- ✓ Schools & Government Buildings
- ✓ Various Commercial Facilities

ONE DOOR SYSTEM. TWO OPERATING OPTIONS.

Choose the closing method that best fits your project needs.
